Profile

Hello World! I'm always eager to learn and looking for a challenge. Switching from electrical engineering to the IT world was demanding, but thanks to a great team and my willingness to learn I was able to gain new skills and reinvent myself in this exciting field. My passion is data and automation so I'm looking for something related to Data Engineering, where I can combine both.

Education

Master's in Electromechanical Engineering, *University Beira Interior*
2016 - 2018

Master's in Electromechanical Engineering, *Politechnika Krakowska im. Tadeusza Kościuszki*
2017

Bachelor's in Electromechanical Engineering, *University Beira Interior*
2013 - 2016

Experience

Kodly, *DevOps Engineer*
12/2020 - 12/2021

Kodly, *SQL Developer*
09/2018 - 12/2021

Desigual, *Software Engineer*
09/2018 - 12/2021

Courses

Data Analytics Bootcamp, *IronHack*
01/2022 - 03/2022

Data Science Math Skills,
Duke University
09/2021

Docker Mastery: with Kubernetes +Swarm, *Udemy*
12/2020

Projects

ETF vs Stocks Dashboard 
Python | SQL | Tableau

Student Analytics Dashboard 
Python | Pandas | Numpy | Dash

Dash Dash Bot (AI Chatbot) 
Python | Deep Learning | Neural Network

Skills

Python | Numpy | Pandas
Matplotlib | Seaborn | Tableau
Scikit-Learn | Machine Learning
Flask | SQL | Linux | Docker
Jenkins | Git
